

RECRUITMENT

Consultant in Policy & Funding | Paris, Brussels, or Rotterdam.

Job description

Hinicio is looking for a Policy and Public Funding consultant with a working experience in innovation and sustainable energy.

The consultant will be part of the team based in Brussels, Paris or Rotterdam working on multiple projects and leading workstreams within those projects, typically on the following tasks:

Policy (National and European level):

- Energy/Transport/Industry related policies and regulations analysis and synthesis.
- Quantitative and qualitative market research.
- Provide recommendations through white papers, memo, position papers for clients.

Public Funding:

- Mapping of funding opportunities.
- Application writing, including specific workpackages like project management, exploitation and dissemination or monitoring and evaluation.
- Proof-reading and assessment of eligibility of your proposal as the grant evaluator would do.
- Introduction to relevant consortia and partners' recruitment for funding applications.

What we offer

An attractive role in a highly motivating sector and growing start-up environment.

The opportunity to produce an immediate impact on projects and clients in an international environment.

A flexible workplace; allowing you to balance the demands of your personal and professional lives. Hinicio strives to have fun while working hard, but understands life extends far beyond the office.

An exciting and supportive working environment, where "intra-preneurship" opens doors to opportunities.

An excellent opportunity for personal career development, including team leadership opportunities for a high potential candidate in short to mid-term.

A remuneration package in line with the candidate's experience and potential.

Desired skills & expertise

At least 3-4 years of experience in Policy and Funding on innovative projects in the field of sustainable energy and/or transport, with a consulting firm, energy utility, SaaS companies, car manufacturer;

Proven experience in delivering policy and public funding consulting projects and studies in the field of sustainable energy and transport in an international environment;

Strong knowledge of national and european decarbonisation objectives and policies in the transport and industrial sector;

Multitasker able to manage multiple assignments in parallel under significant time pressure, in an organized manner;

A supportive teammate able to collaborate with client managers and sensitive to client needs;

A fluent speaker in English, apart from French or Dutch, with great writing and presentation skills;

Ideal candidates are interdisciplinary, combining experience from Engineering, Economics and policy related aspects, either by academic background or experience;

Preferably a Master's Degree in Engineering, Economics or Policy studies.

Nice to have

Knowledge or experience in one or several of the following areas: energy systems and infrastructure, renewable energies, hydrogen and fuel cell technologies, alternative fuels for mobility.

Bright analytical skills combined with a hands-on approach to respond to clients in designing impactful and sustainable solutions.

Ability to bring projects forward in an exciting international environment.

Excellent communication and inter-personal skills.

Ability to understand and translate complex concepts into actionable recommendations.

Collaborative spirit, motivated to learn, and a positive and entrepreneurial attitude to connect with colleagues and clients.

Other languages (eg. Spanish, German, Mandarin) are a plus but not required.

Deadline for applications:
January 21, 2022 midnight (CET)

About Hinicio

HINICIO is a strategy consultancy firm specialized in energy transition and sustainable mobility. We are recognized as a leading player in the hydrogen field in Europe and Latin America.

For more than 14 years, **HINICIO** has been working across the entire value chain helping the industry overcome the challenges and unlock the emergence of hydrogen as an energy carrier.

Our client base includes industrial companies (energy & utilities, automotive manufacturers, tier-one suppliers...), innovative SMEs, investors, or regional, national, and international administrations.

In addition to hydrogen, **HINICIO** supports its clients on a broad range of energy transition and zero emission mobility technologies.

HINICIO is strongly internationally minded: our headquarters are in Brussels and we have offices in Paris, Bogota, Buenos Aires, Santiago and Beijing, and direct representatives in the Netherlands and Mexico.

We have run missions for 14 years in Europe, Latin America, Caribbean, Asia, and North Africa. Our team includes both a young team of bright individuals and very senior experts with strong industrial background. We are all very proud to be part of the energy transition and very motivated to take up all the challenges around it.

We favor diversity and gender equity among our teams, which are composed of engineers, economists, energy & environmental policy experts, and count more than 12 different nationalities.
